

PRODUCT SPECIFICATION SHEET

Product Name: *Clove Stems*

Clove stems, obtained after removing the buds from the clove tree, retain a high concentration of essential oils valued in medicinal, pharmaceutical, and cosmetic formulations. They are also used in combination with clove buds to create rich spice powders and curry mixes. Each stem is meticulously cleaned, sun-dried, and carefully packed in PP bags to maintain purity and aroma.

| Parameter | Specifications |
|-------------------------|----------------|
| Origin | Indonesia |
